

ECE 358 Lab Fall 2022 Operation Notes

Welcome to ECE 358 Lab! My name is Irene Huang and I will be your lab instructor. The Lab contents of this course are developed by a group of past and current lab instructors including Bernie Roehl (retired), Ricardo Rolon (retired) and myself. The Lab tutorials are delivered asynchronous through pre-recorded videos. Our lab starts in the week of Sep. 19th.

Lab 1 video is already on LEARN.

For Lab 2, the video will be released before the lab starts on LEARN.

Lab 3 video (done by Bernie) is already on LEARN.

To support the class, we have scheduled weekly Q&A sessions on Thursdays 17:00 -18:20 in E7-4043. Lab TA(s) and myself are going to be in these sessions to answer questions.

Each business day, we have on in-person lab office hours (see the green highlighted field in the schedule below). The week before the lab is due, we will add one online lab TA office hour session (see the red highlighted field in the schedule below) to provide more support to the class. Note the TBA location is E2-2360 for now and may change to a better room in E7 when we get the room. You should see the LEARN calendar has been updated with all these office hours.

Groups	LOC	TA ID	Initial	First Name	Last Name	M	T	W	R	F

Each group is assigned a grading TA. We encourage you go to your assigned TA's office hours as much as possible.

That's all I have for now.

Thanks!

Irene Huang
